

RENOVATIONS

STRENGTHENING CHURCHES AND LEADERS NOW AND INTO THE FUTURE

Preparation questions:

1. How has 2020, with the pandemic, the election, the racial tension, the angst affected your church context?
2. How are you, as a leader, planning to grow as a leader and be a leader in the post-COVID, post-modern, post-Christian culture we are in?

Watch video (Josh 1.3)

Post-video discussion and action questions:

1. In your leadership context and community, however large or small that is, how can you work toward what Josh refers to as the “church...really having to learn what it truly means to be unified under the banner of Jesus? And [to] bring our diversity”?
2. In this post-COVID, post-modern, post-Christian world, we have some challenges and opportunities. In those challenges and opportunities, Josh says we need to make four shifts. What are they? How can you work on that in your current situation? This is a big question, but it requires necessary thought and planning.

What is my next faithful step?

Notes:
