

# RENOVATIONS

STRENGTHENING CHURCHES AND LEADERS NOW AND INTO THE FUTURE

## Preparation questions:

1. As you lead, you no doubt work with business owners in your church. How can you encourage them (and yourself) to see business as ministry?
2. What are ways you can be relational in your community?

## Watch video (Lester 1.4)

## Post-video discussion and action questions:

1. Lester reminds us that we are living on borrowed capital and time. How can living that way change how you do ministry?
2. Given that we are living on borrowed time, how can you answer Lester's question of what are you doing with your resources today? Those resources can be monetary or people or things.
3. Lester talks a lot about investing in people and doing life with them. If you truly took the time to do that, what would it look like for you as a leader and for your community?
4. Knowing that God sent his Son to us to do life in community, how can you use that as impetus to do life, to "feel the vibrations" in the community where you have been placed?

## What step will I take next?

## Notes:
